THE THIRD INTERNATIONAL CONFERENCE ON ENVIRONMENTAL SCIENCE AND TECHNOLOGY

Wyndham Greenspoint Hotel, Houston, Texas, USA – August 6-9, 2007

Poster Session Presentation

Presentation of a paper in a poster session provides an opportunity for a more personal and in-depth discussion and is an effective way to visually display for your project.

A. The session structure allows each poster paper to be viewed for an extended period, while the presenting author is available to give an oral presentation and to answer questions for the scheduled period.
B. Set-up time is allowed for each presentation to be mounted on a single 4' x 8' (120 cm (height) x 240 cm (width)) bulletin board before the start of the session. It is highly advisable to bring your own thumb tacks or push pins with you; the Conference can only provide a very limited supply of mounting materials.
C. Proper illustration is essential to an effective poster presentation. The use of large lettering (legible at a distance of 100 cm or more) and minimal textual material is recommended. Use of a colored ink in printing and colored paper in framing textual material can be attractive, but excessive artistic flair should be avoided. Illustrations should <u>not</u> be printed on heavy stock because this makes them more difficult to mount securely on poster boards.
D. Presentation of information should follow a logical sequence as it does in the paper, i.e. introduction, results, conclusion, etc. Be sure to include a proper title at the top of the poster.
E. Collection of poster materials at the end of the session is the presenting author's responsibility.
F. Poster sessions are scheduled as follows:
   Poster (I): August 6, 6:30-8:30 p.m.
   Poster (II): August 7, 6:30-8:30 p.m.
   Presentation date of each paper will be printed in Final Program of the conference and posted at the conference web site prior to the conference.

Important Dates

April 30	Last day to obtain discount on Advance Conference Registration
May 31	Last day to submit full paper for competition of Student Paper Award
May 31	Last day to submit full paper for competition of Young Scientist Paper Award
May 31	Last day to obtain the biggest discount on Conference Registration Fee
May 31	Last day to submit full paper for competition of Outstanding Paper Award
May 31	Last day to submit proceedings paper
June 15	Last day to obtain discount on Conference Registration Fee
June 30	Last day to cancel Conference Registration
July 12	Last day to book Hotel at Group Rate
July 15	Last day to cancel presentation or to change scheduled speaker in the Final Program
August 5	Attendee Arrival
August 5	On-site registration
August 6-9	Plenary Meeting and Session presentations
